

LTA VENUE REGISTRATION – PADEL COACH REQUIREMENTS

Current requirements

If a Padel coach is operating at an LTA Registered Venue (either as a standalone padel venue, or one attached to a registered tennis venue), they should be actively working towards gaining their LTA Accreditation.

At this moment in time, they are able to continue coaching without LTA Accreditation as long as they are considered safe to practice, which means they will need to have DBS, first aid and safeguarding training in place. If the padel coach already has a padel qualification from another body, they can apply for their non-LTA padel qualification to be recognised, to enable them to become LTA Accredited.

The requirement for Padel coaches to be LTA Accredited will become enforceable from January 2024. This means that if a Padel coach is not Accredited from that time onwards, they will not be allowed to coach at a registered venue.

If you have any further queries, please contact the Customer Support Team.
